A

Abscesses, cerebral, and purulent meningitis; fatal systemic diseases from dental sepsis, 366
Abstracts of current literature, 128, 383, 639, 768, 894, 1154, 1407, 1513
Actinomycosis as probable cause of peculiar "epulis," 1429
  cervicofacial, treated with prolonged penicillin and tetracycline therapy, 757
  clinical course of actinomycotic infections, 639 (Abst.)
  osseous, of head and neck, 639 (Abst.)
Adamantinoma; pseudoameloblastoma of long bones of skeletal system, 1223
Adenoameloblastoma, 745
  so-called, 1459
Adenoma of parathyroid gland; mandibular osteitis fibrosa cystica secondary to primary hyperparathyroidism, 1094
  pleomorphic, malignant, of palate, 1236
    of minor salivary gland, 14
Adrenocortical responses in patients receiving intraoral injections; stress in dental patients, 1145
Aesthetics, dental, 383 (B. rev.)
Age, gonadectomy, and wound healing in palatal mucosa of rat, 484
Agranulocytosis; oral manifestations in hematologic disorders, 24
Airway maintenance complications, 894 (Abst.)
Allergy; hypersensitivity reactions in mucous membranes, 412, 539
  mechanism; angioneurotic edema, 286
Alveoloplasty and full-mouth extraction, determination of blood loss during, by plasma volume studies with I^{131}-tagged human albumin, 276
Alveolus, bone grafting of, followed by orthopedic alignment of alveolar arch in infants with complete cleft lip and cleft palate, 897
